

FOR IMMEDIATE RELEASE

Flint Bishop Airport Announces Partnership with Metropolis To Deploy New AI Parking Technology

Debuting October 1, Passengers Will Have Access to Seamless Parking Solutions That Save Time and Simplify Journeys

(Flint, MI – September 16, 2025) – Flint Bishop Airport will launch new parking solutions designed to simplify the travel experience from the moment passengers leave home. In partnership with Metropolis, the artificial intelligence company whose computer vision platform enables checkout-free payment experiences, new services will include seamless drive-in, drive-out parking. Metropolis is currently installing its AI technology at all FNT parking facilities, in preparation for the launch on October 1, 2025.

To prepare for these new offerings, travelers and new users can sign up today by downloading the [Metropolis app](#) for seamless parking and automatic payments at both terminal and shuttle parking locations: no tickets, no paper slips, no waiting in lines, just seamless parking. Once the Metropolis app is downloaded, users can register vehicles and payment methods. With the app, members can link their vehicle and payment method to enjoy features like instant notifications upon entry and exit, transparent pricing and payment history, and utilize digital validations and discounts at participating local businesses. “At Flint Bishop Airport, we are committed to enhancing the passenger journey from start to finish. Our partnership with Metropolis brings cutting-edge technology to our parking facilities, creating a seamless, stress-free experience that begins the moment travelers arrive. This innovative solution reflects our ongoing investment in convenience, efficiency, and customer satisfaction.” - Nino Sapone, CEO, Flint Bishop Airport.

To further streamline their airport experiences, passengers and new users can now simply register by scanning a QR code at FNT’s convenient and affordable parking locations effortlessly through the Metropolis app. Travelers can continue to reserve and prepay for parking at either the terminal or shuttle parking options by visiting the following URL:

<https://bishopairport.org/parking/bishop-airport-parking>.

Pricing for parking will remain unchanged:

- **Shuttle Parking:** priced at \$4 per hour, with a daily maximum of \$10 and a weekly maximum of \$70
- **Terminal Parking:** priced at \$4 per hour, with a daily maximum of \$14 and a weekly maximum of \$98

FOR IMMEDIATE RELEASE

Metropolis is transforming the passenger experience with its advanced AI and computer vision capabilities. Following last year's acquisition of SP+, Metropolis is building on its impressive legacy of operating mobility and baggage services for more than 80 additional airports. FNT is the first airport in Michigan and the fifth airport nationally to install Metropolis' drive-in, drive-out seamless parking technology after its debut at San Antonio International Airport last year.

About FNT

Flint Bishop Airport (FNT) is “Not the only way to fly. Just a better one”. Flint guarantees you all of the destination options of a larger airport, while flying from the comfort of a relaxing and beautiful facility. Flint features all-jet service, with flights provided by Allegiant, American, and United. Our airlines provide many nonstop flights to popular destinations across the country, which also connect you to destinations around the world, typically with one stop or less. For reservations and flight information from Flint, visit our website at bishopairport.org.

About Metropolis

Metropolis is an artificial intelligence company whose computer vision platform enables checkout-free payment experiences for the real world. Continuing its trajectory as one of the fastest-growing technology companies in the United States, Metropolis envisions a future where people transact in the real world with even greater ease than experienced online. Following its take-private acquisition of SP+, Metropolis is now the largest parking network in North America with more than 4,600 locations. Its proprietary, artificial intelligence technology is deployed across the United States, reaching more than 50 million customers and processing over \$5 billion in payments a year. To learn more about Metropolis, please visit www.metropolis.io.
